

I know the left's agenda is to create chaos and divisions within the American society.

Groups like Antifa and the BLM organization want to impose an ideology on America that would only bring greater poverty, a loss of freedom, destruction to churches and civil society, and violent law enforcement tactics to enforce compliance—exactly what we've seen in places like Venezuela, Cuba and North Korea. We've seen videos of leftist protesters physically and verbally attacking police officers. We've seen an entire neighborhood turned into a violent "autonomous zone" with spineless politicians telling the police to stand down and let anarchists rule over innocent residents. We've seen violent mobs defacing and toppling statues of historical figures such as soldiers and abolitionists. Some are even calling for the removal of images of Jesus in which he is perceived as "too white." We must stop the violence and destruction and bring those committing criminal acts to justice while protecting the rights of good people to protest peacefully. We must support our police officers who risk their lives every day to protect us no matter our color, religion, sex or nationality—while also making needed reforms to weed out bad cops and end unacceptable policing procedures. Calls to defund the police are calls for chaos, and calls to disarm them are lunacy. We've seen what happens in Seattle, Minneapolis and other cities when criminals are allowed free rein.

Finally, we must combat the Marxist agenda. This agenda has wrought destruction on nations for generations. It expands government control and takes every opportunity to limit freedom—and it must not take root in the United States.

The most desperate communities in America have been run by the left for a generation or more. We've seen what that leadership has brought: generational poverty, fatherless families, worse educational outcomes, more disparity and higher crime rates. Lurching even further left would be even more disastrous.

But nobody has the guts to tell us why the left is doing all this because the left wants all the power and control so they can rake in the money for themselves. Well, that's not going to happen on my watch and I doubt I'm alone on this.

We will implement policies to ensure America's promise of liberty and opportunity is a promise for all Americans. Conservatives have always had the policies that can help solve many of the difficult issues that Americans face. We know how to create jobs, end poverty, provide better access to health care, improve education and strengthen families better than anyone. And our fundamental belief in the inherent dignity of every human being can help bring about the healing our nation so desperately needs.

America is the land of promise, and conservative policies can make those promises ring true for all Americans. It is time for conservatives to take their message of hope to every American to end the racial strife and build an America where freedom, opportunity, prosperity and civil society flourish for all.
